

# 1.2 CSS Must Know

高级网页设计

CSS

# CSS的三种用法

➤ <link>

➤ <link rel="stylesheet" href="resources/css/style.css">

➤ <style>

➤ <style> body { font-size: 14px; } </style>

➤ attribute

➤ <p style="font-size:14px;"></p>

# CSS选择器

- type, class (.), id (#)
- position, group
- attribute
- pseudo element or class
- subclass

# 在Web Tools中查看CSS

The screenshot displays the CSS inspector interface with the following components:

- Styles Panel:** Shows the 'Styles' tab selected. The 'Filter' field is empty. The CSS rules are:

```
element.style {  
}  
body {  
  display: block;  
  margin: 8px;  
}
```

The 'margin: 8px;' rule is highlighted in red. The source is identified as 'user agent stylesheet'.
- Box Model Diagram:** A visual representation of the box model for the selected element. It consists of three nested rectangles:
  - Margin:** The outermost dashed orange rectangle, with a value of '8' on all four sides.
  - Border:** A solid black rectangle with a value of '-' on all four sides.
  - Padding:** A dashed green rectangle with a value of '-' on all four sides.
  - Content:** A solid blue rectangle in the center with dimensions '1309 x 244'.
